

## INTERNSHIP JOIN OUR DATA INNOVATION'S TEAM !

### WHO WE ARE

Producer and broadcaster of high added value information, Infolegale is a company with strong growth created in 2008. Our offer consist of differentiated solutions to address solvency, credit risk management, compliance and marketing informations.

Located in Lyon Part-Dieu, Infolegale is a human-sized company that beside its 12 years history has kept its "start-up" mind.

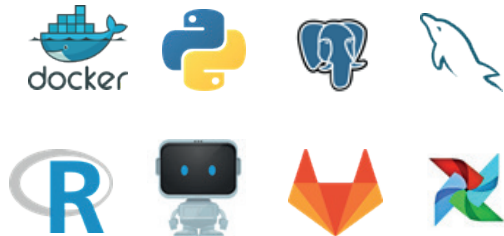

To support its ambitious growth Infolegale Data Innovation's team is looking for motivated interns who wish to level-up their data science skills.

By being part of the Data Innovation team of Infolegale you would have the opportunity to work within a dynamic team where personal initiative is highly valued.

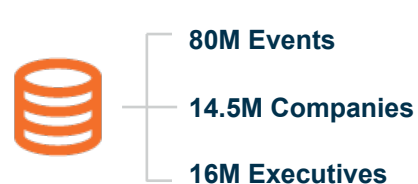

Our area of interest are company solvency, data quality, supervised and unsupervised fraud detection, NLP, NER and active learning methodologies.

- ▶ During this internship you will have the opportunity to discover the whole process of setting up a production grade data centric solutions, master active learning methods and/or NLP/NER techniques and level up your analytic and programming skills.

### YOUR PLAYGROUND:

### KEY FIGURES:

### CANDIDATE ARE EXPECTED TO HAVE:

- Good understanding of machine learning concepts
- Good understanding of performance measurements of classification models (Sensibility, Gini...)
- Strong analytics and communications skills
- Strong programming skills (especially Python)
- Basic SQL skills
- Some knowledge with the R programming language would be a plus.
